

March 2016 - New Release – For immediate release

Rittco Launch Ultimate Head Gasket Repair at AAE

K-Seal Permanent Coolant Leak Repair, a bestseller in the USA and the UK, is already a popular and trusted product in Australia. Rittco, distributors of the K-Seal brand in Australia, are delighted to announce the launch of *K-Seal Ultimate Head Gasket Repair* that will debut at the Australian Aftermarket Expo which takes place on 6-8 April in Melbourne.

K-Seal Ultimate Head Gasket Repair is guaranteed to fix leaks in the head gasket, head and block of all water-cooled engines. Just 1 bottle will treat engines up to 12 cylinders. K-Seal Ultimate can also restore porous blocks, offering savings of literally thousands of dollars to the user. K-Seal coolant leak repair products are the only ones to have been independently university tested to meet ASTM D3147, the global coolant leak standard. This means retailers and end users can be sure that the products are not only effective but also completely safe to use.

Visit Rittco at Booth D36 to find out how you can benefit from installing the best coolant leak repair product available on the market today. Free sample for the first 20 visitors to the booth (D36) each day. Visit www.kseal.com for more information.

About K-Seal

K-Seal is the global specialist in coolant leak repair technology. With over 5 million bottles sold worldwide K-Seal is recognised by retailers, trade users and motorists as the only product they can trust to safely and quickly solve coolant leak issues throughout the cooling system. K-Seal will repair leaks in any size cooling system from a motorcycle up to a locomotive. K-Seal is the product of choice for a number of national breakdown organisations to help keep their members on the road.

K-Seal is available in Australia from Repco, Supercheap and other good retailers. For distribution enquiries please contact Rittco Distribution
